

# NATIONAL ARMORY SCENE OF ANNUAL PENNY FAIR TONIGHT

## Gauchos Stage Third Annual Carnival

With an anticipated patronage of 1000 students and townspeople, the third annual Penny Fair to be held this evening from 7 to 12 in the armory is expected to be one of the most successful social events of the year, Paul Christ, chairman, stated this morning.

Provisions for dancing, 15 booths refreshments, and prizes will be featured at the affair, Mr. Christ explained.

Booths planned and erected by junior college clubs will compete with one another for prizes being offered for the best booth, Dean of Men Flint announced today. This prize is a trophy to be given to the victorious club for one year. A club which wins trophy three years in succession will receive permanent possession of it, Mr. Flint explained.

A prize will also be awarded to the club selling the most tickets, the prize consisting of a five-pound box of candy, it was stated.

Organizations which received these awards last year were the Buccaneers who won the trophy for the best booth and Las Meninas who won the prize for selling the most tickets.

Students who are in charge of the affair are Clyde Files who supervises advertising, Leo Snedaker who is in charge of tickets, Don Randall who will look after the music and Charles McIntyre who will act as booth chairman.

## Last Rites Held For Local Student

Funeral services for Betty Bryant, Santa Ana junior college sophomore, were held Tuesday from the Holy Family Catholic church in Orange of which she was a member. Burial was in the Holy Sepulcher cemetery.

Prominent in many school affairs Miss Bryant was an active member of the Sisterhood of Spinners and was a member of Del An's staff.

Miss Bryant was killed last week in an auto wreck which occurred when the car driven by her father crashed into the rear of a truck and two trailers which had stopped without lights.

## Debaters May Enter Forensic Tourney

With the news that Santa Ana Junior college will probably enter the annual junior college forensic tournament, debaters here were making preparations this week for the competitive team selections which will include only four debaters on the local team.

The tournament will be held this year at the College of the Pacific in Stockton, Feb. 11, 12, and 13. The same question debated in previous conference debates will be used, "Resolved: That Congress should be empowered to fix minimum wages and maximum hours for industry."

## STUDENTS TURN TO SMUDGING

### Job Has Lots Of Work But No Sleep

By OSCAR LIEFFERS  
While city folks lie in their warm beds, dreaming of castles in Spain and countries without civil wars, farmer boys and enterprising city lads await the sound of the telephone that will send them on their way to some grove to smudge.

After bundling themselves up and picking up a lighting can, the night's work for the "darkies" begins. First of all, their job is to light smudge pots. Nothing to it at all. Just walk up to a pot and stick

# TWELVE CANDIDATES SEEK POSTS

## Johnson's Experiences In Real Life Read Like Fiction; Toured World Several Times

By JACK GARDNER  
AND OSCAR LIEFFERS

Conqueror of the wilds of Africa; conquered by civilization.

Such was the tragic fate of the world-renowned explorer and cameraman, Martin Johnson. He and his equally famous wife, Osa, were enroute to Santa Ana to appear at a jaysee assembly when the accident occurred. The program has been cancelled.

More Than Hunter  
Contrary to popular opinion, Martin Johnson was more than a big game hunter. He was an explorer, a pioneer, a zoologist, and a cameraman. With camera and pen, he recorded the wild life of Africa, Borneo, Australia, and the South Seas.

His life story reads like fiction. He was born in Rockford, Ill. on Oct. 9, 1884. His interest in photography dates back to the World's Fair of 1893 when his father brought him one of the first cameras to be marketed. His father took over the Eastman agency in Rockford that his son might learn more about cameras.

Joins Jack London  
Wanderlust soon seized young

### PLANE VICTIM

CUT COURTESY THE REGISTER  
Martin Johnson, noted explorer, who is pictured above, died this week as the result of injuries received in an airplane crash near Newhall. He was to have appeared in Santa Ana next Monday.

Martin. He left for California and shipped as cook aboard Jack London's boat on an expedition to the South Seas. Following his marriage,

he left with his wife, Osa, on a second trip to the South Seas.

In pursuit of his hobby of recording on film the diminishing wild life of foreign countries, he spent 12 years in the South Seas, one year in Australia, two years in Borneo, and five years in Africa, where his most extensive work was carried on. His wife always accompanied him on these expeditions that carried him around the world six times.

### Writes Many Books

He has written many books, was responsible for several moving pictures, and was conducting a lecture tour when he met his death. His membership in the American Museum of Natural History is evidence enough of the value of his work in African zoological research.

Mr. and Mrs. Johnson were on their way to show motion pictures in color of Borneo in various California cities when the airplane in which they were passengers crashed near San Fernando ending his brilliant career. They were to have appeared here next Monday under the auspices of the Santa Ana Ebell club.

## Set Wednesday For Primary Election

By DICK PHILLIPS  
They're at the starting post! Twelve candidates will seek four second semester Associated Student positions at the polls next Wednesday, Jan. 20, when semi-annual primary elections, are held here. Finals are scheduled for Friday, Jan. 22.

Presidential nominees presented at this week's assembly include Neil McDaniel, present Associated Student treasurer; Franklin Guthrie, now commissioner of men's athletics, and president of the Junior Lions; Bill Greschner, outstanding all-around athlete and exalted ruler of the Bachelors; and Fred Newcomb, recent transfer from Whit-tier college.

For Vice-president  
Fred Erdhaus, Gordon Bishop, Buccaneer, and Dick Connell, Bachelor, are the vice-presidential nominees.

The secretarial race features Dorothy Jenkins, Las Meninas member, and Lou Ella Pierce of the Spinners.

Three seek the treasurer's job; Phil Cook, Kenneth Nissley, and Bob Fowler. Nissley is a member of the Gauchos; Fowler a Buccaneer.

Give Platforms  
Following are the candidates platforms:

Franklin Guthrie—"I declare my support for individual sweater awards for both track and basketball two year lettermen from the Associated Students, a bigger and better program of second semester (Continued on page 3)

## 300 Innoculated By Dr. Mock

Dr. Byron F. Mock, jaysee physician, has inoculated almost 300 high school students between the ages of 15 and 17 with tuberculin serum the past week, it was disclosed today.

Each year the school health department selects some disease as a project and makes a survey in elementary and high schools. This year the subject is tuberculosis.

"The results of last week's inoculations were very favorable," Dr. Mock stated. "The tests showed negative results for 251 students while only 42 showed positive results. Four students will have to take the serum again."

"Out of the 42 positive results there will probably be about one who has active tuberculosis," Dr. Mock continued.

## Eight New English Courses Offered

Eight new English courses, ranging from commerce to literature, will be offered next semester.

Mrs. Eleanor Northcross will offer a course in creative writing, the purpose of which is to offer an opportunity to write regularly and effectively to those students who are interested in literary composition. For individuals interested in another type of writing, there will be a new journalism course in modern feature writing under John H. McCoy. Incidental to the secretarial courses is business English, which is given this year by Thomas H. Glenn.

Several courses in the appreciation of literature will be available. Mrs. Northcross will conduct the course in modern poetry; Miss Agness Todd Miller, American and English literature; Mr. Glenn, world masterpieces and Shakespearean tragedy.

The origin and development of the English language forms the basis of the course in word study which will be offered the second semester.

## Mattson Boy Taught By Student's Aunt

Kidnapping and slaying of 10-year-old Charles Mattson near Everett, Wash., had particular significance to a local junior college co-ed here today. She is Betty Lee, secretary of the Associated Students.

Betty Lee's aunt, Mrs. Thore D. Orr, was a teacher in the grammar school where young Charles was a student. She was also a teacher of George Weyerhaeuser, who was abducted in much the same manner as Charles in May, 1935.

Last summer Betty Lee visited her aunt who lives within a block of the Weyerhaeuser home.

## 'Lost Horizons' Is Fiesta Play

"Lost Horizons" by John Hayden and Harry Segal was selected today by Ernest Crozier Phillips, drama instructor, as the play to be presented here on Fiesta day, May 14. Characters for the play will be taken from the drama classes if enough suitable students are found, it was said. "Because of the fact that there will be 11 women and 20 men in the cast, outside students are encouraged to try out for the parts," Mr. Phillips stated.

## New Play Scheduled Wednesday Evening

"It Can Happen to You." Such is the title of a play to be presented at the Santa Ana high school next Wednesday and Thursday, Jan. 13 and 14 under auspices of the local Parent-Teachers association and the Automobile Club of Southern California.

A matinee will be held at 3 p. m., Wednesday, with evening performances starting at 8 p. m. Junior college students are granted a special rate of 10 cents.

## SWITZERLAND LURES STUDENT

### Betty Hammond To Study In Geneva

"At this time next year, it is my plan to be attending classes in Switzerland." So states Betty Hammond, junior college co-ed daughter of Director D. K. Hammond.

Miss Hammond plans to leave the United States the last of July or the first of August for the College of Geneva where she will complete her education. The plan is the culmination of many years of schem-

ing, Betty testified. "I almost went over six years ago, but couldn't leave at the last minute. I guess it was then that I really started thinking seriously about it," she ventured.

Regular Course  
She will take the regular course offered for women at the college. For two years she has been taking (Continued on page 3)

# Complete Schedule Given For Final Examinations

## Tests To Start On Saturday, Jan. 23

### BULLETIN

Students are urged to consult the official bulletin board in College hall next week for any possible changes that may be made in the examination schedule. The schedule as printed in El Don is correct in every detail and will be followed barring conflicts that would make changes advisable.

Excerpts from faculty regulations: "Final examinations are mandatory in all courses except laboratory courses, and in these at the option of the teacher in charge. Final examinations are held regularly at the end of each semester and each examination covers the entire semester's work. Three hours are devoted to each examination in a three unit course and two hours to each examination in a two or one unit course. A passing grade is required in final examinations in order to pass the course. Students are required to take the final examinations at the appointed time and place in order to secure credit.

Second Semester, 1936-37

Monday, Feb. 1—8 A. M. to 12 M.

Sophomores whose last names begin with the letters: A to K.

Monday, Feb. 1—1 P. M. to 5 P. M.

Sophomores whose last names begin with the letters: L to Z.

Tuesday, Feb. 2—8 A. M. to 12 M.

Freshmen whose last names begin with the letters: A to K.

Tuesday, Feb. 2—1 P. M. to 5 P. M.

Freshmen whose last names begin with the letters: L to Z.

Wednesday, Feb. 3—8 A. M.

Instruction for second semester begins.

## Weather Bureau Reports For 1936 Made Public by Roemer

By LAWRENCE TRICKEY

An average temperature of 63 range with a fluctuation of 30 degrees for 1936 was recorded by the jaysee weather bureau, it was learned today from Charles Roemer, post-graduate science student, who is in charge of the meteorology station.

Roemer, who is aided in his observations by H. O. Russell, head of the college engineering department, also disclosed the highest temperature of the year at 96 degrees which occurred on Aug. 8, and the lowest which dropped to 33 degrees on Dec. 30. The greatest temperature range in one day was recorded Nov. 9 when the mercury circulated between 48 degrees. The least range occurred on March 5 when there were only 2 degrees variance. There were 11 days of 90 degrees or more and 50 days of 40 degrees or less, according to Roemer's records.

The rain total for the year of 1936 was 8.73 inches, 3.63 below average. December had the greatest rainfall with a precipitation of 6.53 inches or nearly 75 per cent of the year's total. In the 24 hours between Dec. 26 and 27, it rained 1.76 inches. From Feb. 11 to 16 there were six consecutive days of rain. Then from April 30 to Aug. 7 there were 100 consecutive days without rain. The total rainy days for the last year were 38, it was revealed.

February was the coldest month with an average of 55 degrees. May was the driest, one of the six driest Mays on record. July recorded the highest temperature average with 72 degrees, while August marked the highest maximum temperature of 96 degrees. The August rainfall was the heaviest for this month since 1889.

November was recorded the

# Angne, Allen, Rurup Run For A. W. S. Presidency

## Final Elections Set For Next Wednesday

Nine women students will compete next Wednesday for Associated Women Students officers following nominations held Tuesday of this week.

In the fight for the presidential post are Polly Angne, Llewellyn Allen, and Henrietta Rurup. Miss Angne is serving as social commissioner of the Associated Students this semester and is president of the Spinners service club. Miss Allen is a Meninas member while Miss Rurup is this semester's Moav president.

For vice-president are competing Virginia Sheppard, Anne Borchart, and Leola Schroeder. The secretarial race includes Billie Johnson, Anne Wetherell and Jean Mulbar.

The primaries will be run off in conjunction with the primaries for the Associated Students officers. Genevieve Eustis, secretary on this semester's A. W. S. cabinet, is in charge of the elections. Nominations were staged in the music room of the Willard Junior high school following the Associated Students assembly Tuesday.

## Switzerland Lures Betty Hammond

(Continued from page 1)

French in local schools along with European history preparatory to her entrance to Geneva. French is the only language spoken by the students.

Upon being asked how long she planned to stay, Miss Hammond said that she would stay one year mainly for the cultural background and for an international outlook on current affairs. "If I'm able to stick it out," she continued—probably thinking of the French-speaking students—"I would like to stay two years and graduate. Afterwards I will probably settle down as a teacher. I would much rather go into some kind of foreign service. Here's hoping there is still something left of it by the time I get there!"

She has been especially anxious to leave since the recent upheaval in European affairs.

Her mother and younger brother will accompany her across. Mrs. Hammond plans to leave her son in an English school, travel with her daughter to Switzerland, and then spend the remaining time of the school sessions traveling elsewhere in Europe.

Miss Hammond has attended Santa Ana schools practically all her life. Her central interest is in history and current history is "being made in Europe." She will attend the League of Nations meetings as a part of her Switzerland college training.

Ruth Wagner visited New York during the Christmas holidays. After spending 16 days in New York, she returned to Santa Ana via Chicago and Salt Lake city.

## Campus Views

By BOB SWANSON

"Let's build a new junior college!"

These are the words on the lips of energetic community workers, students, and teachers, nowadays. And rightly, too!

It's common knowledge that the faculty and equipment of the jaysee are unsurpassed, while the housing facilities—buildings and classrooms—are inadequate.

At the beginning of every school term there are prospective freshmen who take a look at the local campus, College hall, and the few scattered buildings, then decide: "Well, I guess I'll go someplace else."

They're **WRONG**, of course. They shouldn't judge on outward, surface appearances. **But they do.**

How will we get that enrollment which is an indication of superiority, today at least, of an educational institution?

"Build a new campus," you say.

All right. **BUT—**

**The Man With The Pocketbook** has just dug down and financed a huge high school building program, which isn't finished yet!

**AND—** Exactly 31 cents of every tax dollar in Orange county will go to retire bonds due during the 1936-1937 fiscal year.

School bonds, alone, in the county amount to \$1,753,740!

What will Mr. Taxpayer say?

If he objects, we can tell him that if such construction program is carried through now federal funds may be obtained, thus lessening the burden of the local taxpayer.

There's the problem.

If we don't get a new campus right away, will that mean the educational pursuits of the college will be at an end?

**NO!** Socrates, one of the greatest thinkers, taught in the streets of Athens to the youth of that city.

Many of the great universities of the world have been very unpretentious. And the freedom of learning wasn't obstructed.

But the practical viewpoint shows the absolute necessity, in the modern world, to have a large school with a good football, basketball, and track team; a large campus with beautiful structures, comfortable classrooms.

The proposed program to erect a new junior college should be carried out—today, or in the near future.

Ordinarily, the Chamber of Commerce avoids acts which draw criticism from within the community.

But it pulled a "boner" this time. Following the custom of 1929 and 1933, when the Dons won football championships, the Chamber of Commerce planned to fete the team as a reward for the 1936 victory.

The city press agents invited Joe E. Brown, among other performers, to the affair.

Brown called up, said he was sorry—couldn't come.

The banquet was postponed. Last week the whole affair was unceremoniously dropped in the lap of President Vic Rowland, and the executive board.

The Associated Students, on a moment's notice, made hurried

### ATTENTION DONS!

## Primary Election Next Wednesday

(Continued from page 1)

activities of the jaysee than before: and increase interest in current activities in the way of assemblies, sports events and social activities."

Bill Greschner—"My whole platform may be expressed in a single word, "improvement." I promise integrity and sincerity."

### Membership Drive

Fred Newcomb—"First, I would like to increase the membership of the student body and if elected will conduct a membership drive. Second, I will devote some time to making way for a student panel discussion group to conduct forums for people to show the work of Santa Ana Junior college. Also, I will work in trying to run the student body as a unit without allowing one clique to run the school."

Neil McDaniel—"I shall do all I can to promote, develop, and maintain school spirit in an effort to make the students and public junior an effort to make the students and public junior college conscious."

plans for the event, to be held Tuesday evening.

And just to show the city folks what can be done, everyone is determined to make this a successful gathering.

The football team and Coach Cook have been denied this recognition and courtesy for a long time, so let's all turn out for the banquet and help make it a very pleasant occasion.

## New Campus Is Kiwanis Goal

Plans whereby the local junior college may get a new campus were announced recently as one of the main objectives for the current year by the Kiwanis club.

According to R. B. Newcom, president of the club, Sam Hurwitz has been selected as chairman of a committee to develop information regarding public opinion. Ways and means of bringing about construction of a new college plant and site, will also be discussed.

## Las Meninas Meet With Bachelors

Last night Las Meninas held a joint meeting with the Bachelors service club. Dancing was the main diversion of the evening, and later refreshments were served by Genevieve King, Elsie Kokx, Dorothy Newman, and Mary Holtz.

At a business meeting of the Meninas held before the party, officers for the next semester were discussed, and the Penny Fair booth was decided upon.

### Informal Party

The semi-annual informal party of the Las Meninas service club was held recently at the local skating rink. After skating, the group adjourned to the El Sombrero where they dined. Betty Lee was in charge of arrangements for the party. Velma Kuechel was in charge of the finances for the evening.

### SON OF ZAHAROFF?

Pictured at his last in his South Kensington shop in London is 67-year-old Hiram Barnett Zaharoff, shoemaker, who claims he is the son of Sir Basil Zaharoff, munitions king who died recently. Shoemaker Zaharoff, who plans to claim the fabulous munitions fortune left by the "merchant of death," says he has documentary proof of his parentage.

### HONOR LATE SINGER

Mme. Ernestine Schumann-Heink, whose recent death at the age of seventy-five brought sorrow to millions of Americans. The famous star of the opera, concert stage, radio and screen had endeared herself to the American people as have few public personages. She first appeared before an audience in this country in 1898 in Chicago, where she portrayed the role of "Ortrud" in Wagner's Lohengrin.

## Scenes and Persons in the Current News

1—Gen. Emilio Kleber, commander of the loyalist forces defending Madrid. 2—Ceremony in Calcutta at which George VI was proclaimed Emperor of India. 3—Speaker William H. Bankhead who presided at the recent opening of the seventy-fifth congress.

## W. A. A. Candidates Are Nominated

Nominations for second semester Women's Athletic Association officers, to be voted on Tuesday, Jan. 19, were made at a noon meeting this week, President Barbara Hallman announced today.

Velma Kuechel and Bernice Sparks were nominated for president, Evelyn Kent and Elaine McReynolds for vice-president. Madeline De Brower, Josephine Owen, and Helen Lowe are running for secretary, with Nedra Montgomery and Idrene McFarland for treasurer.

Polls will be open from 8:00 to 3:00 in the student office next Tuesday, and all W. A. A. members are eligible to vote.

New officers will replace Barbara Hallman, president; Gerrie Griffith, vice-president; Barbara Leeback, secretary; and Anne Borchart, treasurer.

This sport season's appointive members, Mary Henderson, basketball manager, and Anne Wetherell, tennis manager, will give up their offices to hockey and badminton managers, who will be appointed at a board meeting Monday. Miss Zena Leck is adviser of the association.

## Junior Lion Pledges Receive Sweaters

Junior Lions met this week at the home of Dick Geeting, for the purpose of nominating club officers for the coming semester.

Club sweaters were distributed to all the members who had completed the pledge period.

## Moavs Hold First Social Meeting

Holding their first social meeting this year at the home of Henrietta Campbell in Orange, Moav members met Tuesday night to discuss the Penny Fair. A nominating committee for next semester's officers was chosen. Those selected were Jean House, Carolyn Ryan, and Anne Pellegrin.

## DIES IN WRECK

CUT COURTESY THE REGISTER  
Funeral services for Betty Bryant, 19-year-old jaycee co-ed and graduate of Orange High school, were held in that city Tuesday. Death summoned her following an automobile accident in Los Angeles last week. The young woman was prominent in many local campus activities.

## New Jaysee Students Will Take College Aptitude Tests

Aptitude tests and English entrance examinations will be given tomorrow for new students and those attending college who have as yet not taken these tests.

The exams will be held in C110. From 9 to 12 p. m., English examinations will be given, while the Aptitude test will be from 1 to 4 p. m.

The Aptitude test is required of all students attending college. Grades for this semester's work will be withheld until this test is taken.

There is no charge attached to either test. Grades will not be revealed, as they are for office use only.

## "Show Goes On" As Girl Defies Fate

"The show went on." at last Tuesday's Associated Students assembly play, because Carolyn Ryan defied her physician and family by sneaking from her flu bed to play the important role of the catty sophisticate.

Tuesday at 9 a. m. the play was called off. Before 11 a. m., the time previously set, Carolyn arrived at the Willard auditorium clad in her little red hat and the rest of her dazzling costume.

Director William Bachman pleaded for her to go home. But Carolyn objected, "The show must go on. I'll go back to bed for several days when it's over."

## Orphan Kids Re-elect Evelyn Chapman

February 4, is the date set for the next meeting of the O. K. club to be held at the Y at 7:30 it was announced today by Evelyn Chapman, president.

Original games have been planned and suitable prizes for winners will be awarded. This is the first meeting of the second semester. Plans will be discussed for a skating party to be held in March.

The officers for the remainder of the year are: Evelyn Chapman, president; Elmer Meyers, vice-president; Ruth Weir, secretary-treasurer; and social committee, Dorothy Coe and George Aupperle.

## Tavern Tattlers Elect Officers

Gordon Bishop, Elbert Stewart, and Barbara Lee Berger were elected to the offices of president, vice-president, and secretary respectively at a recent meeting of the Tavern Tattlers.

Entertainment in the form of a group discussion of the works of Eugene O'Neill, dramatists and Nobel prize winner, was provided after the business meeting.

The immediate problem which faces the club is the selection of the staff for next semester's Tavern Post.

# J. C. Coaching Staff Augmented With Ernest Butterworth As New Rugby Mentor

With the present grid schedule, the Don football team will find themselves playing an entire month on foreign territory next year. From Sept. 25 when they meet the Stanford Frosh until the first of November, the team will be on the road.

## SPORTS

Probably the most versatile of the jaysee athletes is Erwin Youel, letterman end. In addition to excelling at his right end position, he performs creditably at forward in basketball, has topped 12 feet in the pole vault, and holds down first base in the diamond sport.

# HOOP ARTISTS TACKLE FULLERTON QUINTET

## APPROXIMATELY THIRTY SIGN FOR RUGBY SPORT ACTIVITIES

At a meeting held yesterday afternoon in the Y lobby under the direction of the new rugby coach, Ernest Butterworth, and Coach Bill Cook, plans for the formation of a junior college rugby league were discussed. Coach Cook plans to contact the other conference jaysees in the near future hoping to interest them in the idea.

Should the formation of the new league fall through, games will be scheduled with college teams and independent fifteens. Dates have already been made with University of Southern California and University of California at Los Angeles.

The spring sport was introduced here last year by Coach Al Reboin, now at Huntington Beach high, and proved to be popular as evidenced by this year's large turnout. Over 30 fellows showed their intention of going out for the English game which proved of great assistance last year to the football men who learned to lateral the ball around with exceptional ability. At the conclusion of the rugby season, Coach Cook will conduct spring football practice.

Well-known as a veteran in the sport with training and coaching experience in Vancouver, Canada, where they play the game as much as Americans play football, Coach Butterworth hopes to develop the boys into a powerful fifteen. Talking to the men's assembly, the veteran coach said, "Rugby will be of great assistance to you football men."

## Cindermen Get Sweat Suits Next Week

"All trackmen may report at the high school field and check out their sweat suits any day next week."

With these words, Coach Bill Cook officially announced the opening of the track season for this year. Daily practices will not be held until after the semester ends, however, Cook stated. Many of the boys are already working out getting in shape for the coming season.

### Cokley Back

Coach Cook and Capt. Bill Greschner will have a difficult job on their hands in attempting to mould a powerful team from the material at hand. Most of the strength of the squad will be dependent on newcomers as there are only nine returning lettermen. The Dons will be augmented with the return of Ray Cokley, shot putter and 440 ace.

Capt. Greschner, ace high hurdler and holder of the college shot put record, heads the list of lettermen; others include Bob Reif, capable high hurdler; Dave Clark, middle distances; Bob Clark, javelin thrower; Willard Luton, broad jumper; and George Griffith, high jumper; Cameron Gillis, 21-foot broad jumper; and Inez Granados, two miler.

### Kansas Ace

Of the incoming trackmen, Blas Mercurio is expected to strengthen the team considerably with his high jump specialty, with a mark of 6 feet 2 inches. Tommy Sullivan, low hurdler and quarter miler from the University of Kansas is another newcomer who is expected to come through. Sullivan has marks of 24.8 seconds in the lows and 51s in the quarter.

Dick Tauber, husky javelin

## Buster Keaton Invited To Banquet

Santa Ana's Southern California junior college football champions will be feted Tuesday, Jan. 19, at jaysee's annual football banquet. Formerly to be given by the Chamber of Commerce, it was announced today that the banquet will be presented by the Associated Students because of the Chamber's inability to present the banquet at the present time.

With Coach Leo Calland of San Diego State college featured as the principal speaker, it has been reported that Buster Keaton, film comedian, may attend the celebration as a guest.

Awards in the form of football letters and gold footballs signifying a championship team will be given thirty three players, while seventeen players will receive two-stripe black and red varsity sweaters. In addition, life passes to all Don athletic contests will be presented to all members of the team.

Music entertainment for the banquet will be furnished by the men's quartet and the women's octette.

## Golfers Start League Drive

With enthusiasm ringing high, jaysee's golf team is off to a good start under the skilled help of Warren Kennedy, student coach, and Roy Renwick, Santa Ana Country club professional. The team is expected to have a fighting chance at retaining the league championship.

For the last three years, the junior college divot diggers have won the conference flag. Last year the golfers were the only Don participants to win a championship out of all the major sports.

Students who are planning to join the putters are Houston Kier, Forrest Neal, Bob Bradley, and Chick Shields. More golf enthusiasts are expected to sign up later, according to Kennedy.

tosser from Wichita, Kan., has a record of 178 feet made in high school and should develop into a star performer. Len Stafford, star pole vaulter from Santa Ana high, is expected to enter jaysee in February. He has vaulted 12 feet 9 inches. Others on the squad will be Erwin Youel, fine pole vaulter; Walt Opp, discus heaver; Cyril Nichols, sprinter and low hurdler; and Les Huhn, high jumper. Other track stars are expected to turn out in the near future.

Fullerton's ovalmen have been established as favorites to take the track championship this year, with a host of county stars augmenting Erwin Miller, 440 ace. Riverside's last year champs, will be handicapped by the loss of their coach, Bill Newfeld, now at Harvard.

### ATTENTION DONS!

Continuous shows every day at WALKER'S Theatre, 3rd at Bush. Come in at any time and see a complete show. 20c 'til 4 P. M.

## UP-COUNTY SQUAD FAVORITES TO WIN SECOND LEAGUE TILT

Hailed as the premier basketball team of the Eastern league, and given the best chance to dethrone Riverside's champion Bengals, Fullerton Jaysee's scrappy quintet invades the high school gym tonight to tangle with Davie Don's basketballers.

Lead by Captain "Sonny" Leichtfuss, stellar forward, the Hornet

swarm will feature two former Whittier high school greats, "Little Pig" Allison, forward, and Lee Woodward, center.

Ted Neja and Archie Baker, forward and center respectively, star hoopsters from Anaheim, are also outstanding threats in the 'Jacket lineup.

The Yellowjackets, because of previous non-conference victories, and because of the crushing defeat Riverside gave Santa Ana Wednesday, will go into the game heavily favored to win.

Speed and strength, coupled with steady floor work, has featured the Hornet's victories over Concordia Athletic club and Quentin Matzen's Woolen Mills squad, two of the best free-lance teams in the county.

The Dons will enter the game anxious to avenge last year's defeat by Fullerton, which relegated Santa Ana to third place in the league.

### Probable starting lineups:

Dons	Yellowjackets
Stanley	F.....(c) Leichtfuss
Nissley	F.....Allison
Browning	C.....Woodward
Marshall	G.....Lambert
Youel	G.....Newcome

## What Are YOU Going to do About It?

On an average, only 35 per cent of the students here vote in school elections.

Several junior colleges in Southern California report no trouble in encouraging 60 to 80 per cent of the students to vote.

On the surface, the election of officers this year appears to have aroused more interest than usual. It is conjectural whether this apparent boost in school spirit will carry through on election day. But—

It is a deplorable situation when FOUR out of every SIX students here are **SHIRKING THEIR DUTY**.

If this record continues, let the executive board consider taking steps to deny the right of vote to those who stay away from the polls. It could be done.

\* \* \*

These are years when democracy is being questioned more and more. The depression has seen more than one democracy fail, and a dictatorial form of government spring up in its place, because the people **LACKED THE INTELLIGENCE** to act for themselves in the economic crisis.

A college student body is a democratic community in itself. Those who fail to vote for campus leaders will, in later life, probably fail to vote in city, state, and national elections.

How can the greatest democracy in the world function properly if four out of every six of its future citizens—although intellectually equipped—neglect their fundamental rights and duties?

When two out of six vote, and elect their candidates, we have a government of a minority—not a democracy.

Cushman says the great intellectual movement of the Greeks, 2500 years ago, received a stimulus when democracy was introduced into Athens and other Greek cities.

The Greek citizen of that day held HIMSELF responsible for his government. "It became generally recognized that the most useful and successful man was the educated man." It was a day when courts of law were public, and every citizen was prepared to refute testimony if called upon to do so.

\* \* \*

Education has grown tremendously. But one of its aims—preparation for intelligent participation in public affairs has been tempered.

At least, that is a deduction to be drawn from the status of political interest on the local campus.

"With one aim—to serve student and college."

The official publication of the Associated Students of Santa Ana Junior College, Santa Ana, California. Published weekly during the school year while college is in session, except the weeks of quarterly and semester examinations, and issued on the Junior College consolidation ticket, the price of which includes \$1.00 for subscription to the paper. Entered as second class matter November 9, 1927, at the post office at Santa Ana, California, under the act of March 3, 1879. Published in the school print shop and edited by the journalism classes of the college.

## Tragic Death

It was an ironical twist of fate that Martin Johnson, famed explorer and traveler, should return from a flight over the wilds of Borneo only to perish in a plane crash near the fifth largest city of the United States.

The thousands of miles of jungle over which he flew in Africa and Borneo, and the countless other adventurous places which he visited with his wife, Osa Johnson, held no fear for him.

His death is even more tragic to jaysee students here because the Johnsons were to appear at our assembly next Monday. They had planned to show, in color, motion pictures of some of the scenes they had visited in their travels.

More than one explorer has said that the densest jungle, filled with the most ferocious animals, is comparative peace and quiet and safety compared with an intersection in downtown New York or Los Angeles.

## Overvaluing Youth?

He sat opposite a crisp, efficient personnel man, turning his hat in his reddened hands as he repeated, for the hundredth time, his story:

"I'm 55 years old, and out of work. I was a pretty good engineer five years ago. Then they told me I was too old, that they needed new blood."

Six feet tall, bronzed and hardened by years of outdoor work, he still really is in his prime.

"The trouble with industry," he continued, "is that like movie stars and dowagers, it puts too much emphasis upon youth, forgetting the maturity and judgment of older men."

\* \* \*

This is a scene enacted every day all over the nation. It is a problem so real that 500 Orange county men over 55 years of age, in sound health, have created a plan which will keep them off the dole.

They will organize and furnish skilled mechanics, and other workers, at \$1 a day. They may be past their youth, but they haven't lost their FIGHT.

\* \* \*

And the college graduate can ask the disconcerting question, "What about ME?"

## IT'S FUN WHEN YOU KNOW HOW

By JUNE HOLMAN

"This column is supposed to be clever," I was told when my big opportunity came. The floor is littered with clever beginnings. It will be pathetic or it won't be. A cub reporter's outlook on life is sorrowful. Later on it gets bitter and then sour. Then he starts writing books.

My first interview I took very seriously. I entered the sanctum sanctorum if the interviewee with my little pad and pencil all ready for the fray.

"Yes?" said the victim. I explained my mission in a few well chosen words, only a frog in my throat made it necessary to repeat them.

"Well uh..." I began again in a time-honored manner. We stared at one another dumbly. The rest of the conversation must have been conducted in sign language. All of my information was in the college catalogue anyway.

Stevenson has pointed out that the world is full of a number of things. I never can find them when I need a story. And if, as sometimes happens, I come upon something really good, I take it for granted that someone has been assigned to cover it. That would be all right if my colleagues didn't presume the same thing.

"Snap!" I said and went up and copied the minutes of the Executive board meeting. There were items about an agenda meeting in the dim future, a football banquet, a contest of some sort.... things like that. When the paper page stories of all my board notes.

I didn't know what "agenda" meant. I still don't. The little bird that tells people things told the editor. He assigned me a follow-up on it. I can't find anyone that does know what it means.

Stories are written in advance and we must imagine ourselves in the future as we write them. With this in mind, I had to write a story on the results of a fund which was being collected. It was impossible to know the outcome so I used my imagination and envisioned the surprise and pleasure of the chairman at the overflowing contribution box. I was a little hurt when my story was rejected until I discovered that the sum had proved to be surprisingly small. The chairman, as I had predicted, expressed his surprise but not in the way I meant.

Someone behind the scenes does things to my best stories. They never appear as I write them. The same person leaves my worst stories untouched. Most of my colleagues recall emotions of pride at the sight of the first by-line. Not so me. If editors could be sued for the mental anguish they cause, the world would be a happier place.

Gone are the days when I opened the paper of an evening prepared to be entertained or bored as the case might be. First I hurriedly

## SOMETHING NEW IN BRAINSTORMS

By DICK PHILLIPS

What's your business?

Don't be alarmed by the effrontery. "What's your business?" is just the name of the latest "brainstorm" now gaining popularity with the younger set throughout the country. A cousin of "knock-knock," believe its life will be more prolonged and eventful than the worn out "knuckle" game.

If you haven't fallen victim to this contest of the coming season, now's the time to learn the "in's" and "out's."

To start off with a bang, one runs up to a good friend and shouts "What's your business." (Be sure he or she is a good friend or you might receive such comebacks as "It certainly isn't any of your business," or even take a wild swing at you for spite.)

Your friend may answer, "I'm in the trucking business," to which you immediately question, "How's business?"

Now he hurls his finale at you something like this: "Oh, business is HAUL right." Get it?

For those not pun-minded the game will have no appeal. We admit it's silly, but after all we warned you ahead of time that it was a cousin of "knock-knock."

Let's try another.  
"What's your business?"  
"I'm a plate-glass worker."  
"How's business?"  
"PAN-ful."

It goes on forever—that is, until the puns give out.

The best luck to the coming game of the season

## EL DON MAIL BOX

### LOCAL TALENT

SANTA ANA, Jan. 14. (To the Editor of El Don:—) With all of the talent that there surely is in school, why don't we give an assembly with all local performers? In other schools that I have attended there has always been an atmosphere of get together and swing.

I realize that college is a busy place and one's time is budgeted, but I for one would like to see such a thing put over. The lack of school spirit and will to do things together is beyond comprehension. It takes a championship football team to get a cheer above a whisper.

If college is a proving ground, what a bunch of deadheads this is going to be. It could be handled through the service clubs or one big school affair. Why sit through dry assemblies or fail to go entirely? Your opinion would be appreciated.

Sincerely,  
HAL POTTORF

look to see if my story got in. Then I'm afraid to read it for fear of what they've done to it. Nevertheless, every item is more interesting than before I knew the history of a news story.

## El Don's SCOOP Column

By ROVING REPORTER

### More Nice Things About People:

Evelyn Chapman's pleasantness. . . . Henrietta Rurup's complexion. . . . Dick Geeting's capacity to dress well. . . . Barbara Hallman's cuteness. . . . Kenneth Oliphant's cheerfulness. . . . Eloise Walker's genuineness. . . . Mr. Glenn's accent. . . . Harold Wallace's style of dancing. . . . Catherine Cooper's poetic ability. . . . Paul Christ's hair. . . . Ruth Budd's dry humor. . . . Aline Fowler's capacity for having a good time. . . . Barbara Berger's love of good literature. . . . Bill Semnacher's friendliness. . . . Betty Hammond's innumerable friends and her fondness for them all. . . . Mr. Flint's fairness. . . . Jack Gardner's chivalry. . . . Bob Warren's interesting manner of talking. . . . Doyle Jay's accent.

\* \* \*

### Seen Around the Campus:

Joy Townsley and Mary Coffman eating lunch together. . . . Foster squeezing through the window of the student body office. . . . Llewellyn Allen spending her free time in the library. . . . Charloote McCausland and Mildred Filer. . . . Winfred Crist preferring to study in the reference room of the library. . . . Bessie Burles visiting the campus after a long absence. . . . Wayne Gray and his motorcycle. . . . Mr. Schroeder returning late from Christmas vacation after being snowed in up in the mountains. . . . Etta Bernstein seated on a campus bench. . . . Betty Bradley walking down Main street. . . . Tavern Tattlers meeting in the library. . . . Jo Flaherty and Billie Johnson standing on the street corner chatting. . . . Robert Forcey departing from the gym building with hair all wet and in his eyes. . . . Clyde Files lunching down town every noon. . . . Ruby Frank Jones and Bernice Sparks in the former's automobile. . . . Barbara Langley on her way to the science building. . . . Barbara Knuthe seated in front of the women's lounge. . . . Helena Bailey back in school again. . . . Lauris Adams becoming a proverbial bench sitter. . . .

\* \* \*

### Thrill of a Lifetime:

And then there's Mary Knoche who recently received a letter from Nelson Eddy. It seems that Mary interviewed Mr. Eddy when he was in Santa Ana for his concert. Mary sent him a letter enclosing a copy of the interview; and what should Nelson do but ANSWER the letter. We might add that he has lovely stationery.

\* \* \*

### On and On

Helen Fine received a box of chocolates from some "unknown admirer" at Asilomar. . . . Found the queerest note—addressed to "mysterious Mr. M." and signed in code "A2B". . . . The girls are teasing Genevieve Eustis about Hornee.
